CABLE NEWS.

Cape Colony's Governor.

LONDON, March 29.—H. Arnold Foster
and Joseph Chamberlain made the colonial
vote in the Commons last evening the occa-
sion of an attack upon the appointment of
Sir Hercules Robinson to succeed Sir Henry
Loch in Cape Colony. They spoke especial-
ly of Robinson's relations with commercial
companies as disqualifying him for the
office of Governor. Sir Henry Buxton, par-
liamentary secretary of the colonial office,
replied to the effect that Robinson's ability
and experience made him the strongest and
fittest man for the place. The Liberal-
Unionists will raise the question again in
the report stage of the budget.

Cholera Denied.

LONDON, March 29.—The Central News
correspondent in Hiroshima says the report
of cholera at Porth Arthur is denied
officially.

Deputy Dead.

PARIS, March 29.—Baron Des Rotours,
Conservative deputy for a constituency in
the Nord, died to-day. He was sixty-two
years old.

Dr. Price's Cream Baking Powder
World's Fair Highest Award.

A STEADY IMPROVEMENT.

That is the Verdict Upon the Condition
of Trade Throughout the
Country.

"A Remarkable Feature That the
Lifting Has This Year Begun
at the Bottom."

NEW YORK, March 29.—Bradstreet's to-
morrow will say: General trade for the
third week in succession continues to show
evidence of improvement. In no other
direction is this so plainly indicated as in
the tendency of prices. A week ago en-
couragement had been obtained from a gen-
erally unexpected advance in cotton and
wheat. Following their slight reaction, the
week has witnessed a firm cotton market,
and further improvement in corn and oats,
the effect of which is greatly emphasized
this week by advances in quotations not
only for coke but prospectively for iron ore
and for Bessemer pig iron, for steel
billets, and actually for manufactured iron
at Western markets. Higher quotations for
cut meats in the West are the outcome
of restricted supplies of cattle, and this is
behind the increased demand for shoes for
fall delivery, as quotations for leather con-
tinued upward on the comparative scarcity
of hides. Firmness in cotton at the late
advance has shown itself in higher quotat-
ions. The increased demand for petroleum
on reports of reduced output have pushed
prices up; and higher prices for hogs at the
West have brought like quotations for
pork and lard; in addition, advances
are reported on butter and eggs.

At Toronto business is unchanged, being
characterized by only a fair demand for
sorting up goods. Manufacturers and job-
bers at Montreal report business quiet and
do not expect activity until navigation
opens. Business is quiet also at Halifax
and throughout Nova Scotia, where col-
lections are slow. Bank clearings at Win-
nipeg, Hamilton, Toronto, Montreal and
Halifax aggregate \$15,261,000 this week,
a falling off of about 16 per cent. from last
week and practically the same total as was
recorded in the week a year ago.

R. G. Dun & Co.'s weekly review of trade
will say: Signs of improvement are all the
more satisfactory because neither accom-
panied nor apparently produced by a specu-
lative craze. Dealings in stocks, cottons
and wheat are not diverting all the interest
and capital from productive industries and
legitimate trade, though these products are
all a shade stronger, but railroad earnings,
bank clearings and industrial transac-
tions are more encouraging this week.
It is a remarkable feature that the
lifting this year begins at the bot-
tom, so to speak; raw materials are
raised before there is any larger demand for
their finished products, a thing not often
done with success. Hides rose, then
leather, and then shoes; cotton rose, and
afterwards some cotton goods; coke was
advanced and afterwards Bessemer pig. In
all these cases it is reasoned that the larger
demand for consumption though yet want-
ing must come when it is seen that prices
are going up. Higher wages for coke
workers have been followed by a formal
advance of 40 cents in the price of coke, and
now Bessemer has risen 45 cents at Pitts-
burg and 25 cents at Philadelphia.

The failure of several large factories this
month has swelled the aggregate of li-
abilities for the three weeks of March to \$11,
271,121, against \$10,061,991 last year, of
which \$6,411,342 were of manufacturing
concerns against \$1,698,115 last year; and
\$4,824,779 in trading concerns against
\$4,225,082 last year. The failures this
week have been 234 in the United States
against 238 last year, and 42 in Canada
against 30 last year. But the recent in-
crease indicates past rather than recent
conditions of unsoundness.

AMERICAN NEWS.

Escaped the Fatal Passage.

BRIDGEPORT, Conn., March 29.—A letter
has been received from John Brunson, who
was believed to have been lost with his
sister Ida on the ill-fated steamer Elbe.
Mr. Brunson was to have sailed on the Elbe,
but at the last minute changed his mind.
He is now at his home in Denmark and will
come to this country. The passenger list of
the Elbe contained the names of John and
Ida Brunson. The victims are now believed to
be the couple missing from Oakland, Cal.

Bar Iron Manufacturers.

CLEVELAND, March 27.—An adjourned
meeting of the bar iron manufacturers of
the West was held yesterday in the Wedell
house. It was decided to form an associa-
tion for mutual protection, which will be
called the Western bar iron manufacturers'
association, and will include only manu-
facturers west of the Alleghenies. This
association will in the future regulate all
such matters as rates, discounts, prices and
wages.

Jealousy of Europe.

BOSTON, March 29.—A City of Mexico
special to the Herald says: "Public feel-
ing against European interference in Latin-
America grows strong here. The news-
papers are now discussing the possibility of
an alliance between the United States and
all the other republics of this hemisphere,
in order to present a common front against
the ambitions of Europe. In case there
should be an abuse of power on the part of
any European nation toward any American
country whatever, says one influential jour-
nal, there will be an outbreak of American-
ism which will astonish the world."

The Alliance Business.

WASHINGTON, March 29.—No official con-
firmation of the report that the captain of
the Spanish gunboat which fired upon the
Alliance had been relieved of his command
has been received here. If the report be
confirmed it would indicate that the naval
commander at Havana has satisfied himself,
after careful investigation, that the Alliance
was outside the jurisdiction limit and that
the attempt to interfere with her voyage
therefore cannot be sustained.

The wall paper season has commenced.
Those who are contemplating a "clean up"
cannot do better than see Waller's stock.

JAPAN'S GRACEFUL ACT.

An Armistice Granted Unconditionally Be-
cause of the Attack on Li
Hung Chang.

WASHINGTON, March 29.—The following
telegram was this afternoon received by the
Japanese legation from the Japanese foreign
office: "On the opening of the negotia-
tions the Chinese plenipotentiary proposed
an armistice, which the Japanese govern-
ment were willing to accept on certain con-
ditions. While these negotiations were going
on an untoward event happened the
person of the Chinese plenipotentiary. His
Majesty the Emperor having in view this
unhappy occurrence, has commanded the
Japanese plenipotentiaries to consent to a
temporary armistice without conditions.
This was communicated to the Chinese
plenipotentiary."

SHANGHAI, March 29.—The Shanghai
Mercury says Japan is operating against
China at several different points concur-
rently to strengthen her hands in view of
the probable armistice.

LONDON, March 29.—A Tokio dispatch
says Japanese Admiral Ito reports that on
March 29 his fleet bombarded the north-
west forts of the islands of Pescadores,
and next day landed a force which cap-
tured the northern and eastern batteries
with the guns of the warships supporting
the attacking party. He in another report
says he intends attacking Ma Kong and Li
Chang Ko at once. The flagship of the
French fleet, he says, is watching operations.

LEGISLATURE ADJOURNED.

The Government's Course Now Generally Ap-
proved—Plan of the Opposition—Mr.
Greenway Honored.

WINNIPEG, March 29.—(Special)—The
legislature adjourned to-day till May 9, the
opposition offering no amendment and agree-
ing that the government's wisest course is
to take the remedial order into careful con-
sideration. The policy of the opposition
will be, it is said, to move for separate
schools.

At the close of the legislature to-day
Premier Greenway was presented with a fine
full-length oil painting of himself from the
members.

PREMIER TURNER'S TRIP.

He Goes by Invitation of the Financial
Agents to Give All Required
Information.

Three Per Cent. Again the Borrowing
Rate—Illness of the Agent
General.

Hon. J. H. Turner, Premier and Minister
of Finance, accompanied by Mrs. Turner,
was a passenger to the Mainland
by the Charmer this morning on his way to
Ottawa and London. The Premier yester-
day spoke with the COLONIST on the subject
of his trip.

"I expect to spend a day or two in Ot-
tawa," he said, "on my way to England, to
arrange there about several matters of pro-
vincial concern, and I will visit Ottawa on
my way back in connection with any mat-
ters which may be then still unsettled."
"In England my chief business will be
making arrangements for the new loan—
and this indeed is the only specific matter
which requires my attention, though no
doubt others of more or less importance
will come up. I am going at the
express request of the financial
agents in London, who have written that
they wish to talk to me face to face about
the loan, and about the financial position
and general affairs of the province. They
think, and I am disposed to agree with
them, that the fact of my being on the spot
and ready to answer authoritatively any
questions which may be raised will have a
good effect."

"No arrangements for the loan have yet
been made, in fact we have for the past few
weeks been without the valuable services of
our Agent-General, as Mr. Vernon has un-
fortunately been laid up with a severe at-
tack of la grippe. He has, I believe,
been in bed for about three weeks,
but latest reports, as his many
friends here will be glad to know,
are that he is gaining strength and should
soon be about again. His illness I believe
has interfered with the progress of arrange-
ments about the Agent-General's new office,
so that I do not know now where my official
headquarters in London will be."

"The new loan, as the public have heard
so often, is to be \$420,000. It will bear in-
terest, as the last did, at the rate of three
per cent. and will be repayable in fifty
years. It is true we got authority from the
legislature to pay interest not exceeding
three and a half per cent., but it is not in-
tended to raise the rate above that at which
the last loan was issued—three per cent.
I have every reason to believe
that at this figure we shall be able to again
obtain a very good price for our stock. At
all events there is nothing in connection
with the position and prospects of the
province—as I shall be able to make clear to
intending investors—which would lead one
to have any doubt on this point."
"It will probably be well on towards the
end of May before the loan is floated; and
until then this matter will receive my con-
stant attention. After that time, every-
thing being as hoped for, I expect to take a
short rest, for I have not had a holiday for
a long time. It will therefore be well into
the summer before I return."

"The acting Premier during my absence
will be Hon. Col. Baker—the senior in the
cabinet except Hon. Mr. Pooley, who being
without portfolio cannot be expected to go
thus into harness. Col. Baker will
also take over the supervision of my
departments. He, too, is going to take a
holiday while I am away, so that some per-
son else will for a time have the direction of
affairs."

"There is no official announcement that I
have to make before leaving. You might
say, as I have no doubt the public will be
interested in the fact, that the final details
connected with the taking over of the par-
liament buildings contract by Messrs. Mc-
Gregor & Jeeves were to-day settled, and
there is every reason to believe that the
work will now be carried to completion as
expeditiously as could be wished."

CAPITAL NOTES.

The Minister of Justice Resumes His
Duties—The Statue of the
Old Chieftain.

Martini-Metford Rifles Given Up as
Too Heavy—Montreal's Ex-
hibition Project.

(From Our Own Correspondent.)

OTTAWA, March 29.—Sir Charles Hibbert
Tupper has resumed charge of the Depart-
ment of Justice, a satisfactory understand-
ing having been arrived at between him and
the Premier.

Hon. J. C. Patterson, minister of militia,
announces that no more Martini-Metford
rifles will be purchased by the government.
This gives great satisfaction to riflemen as
it has been contended that these rifles being
old Martini's plugged and bored or else solid
Martini barrels bored to Metford calibre
were altogether too heavy.

Mr. Hebert, the successful sculptor for
the monument to Sir John Macdonald
which is to be erected on Parliament Hill,
was in the city to-day and had an interview
with the Minister of Public Works. He
states that the finishing touches are just be-
ing given in Paris to the casting of the
bronze figure of the late Premier. He
thinks the statue will be ready for unrolling
on the 24th of May.

A deputation from Montreal will see the
government to-morrow to urge a grant to
the international exhibition there next year.

CANADIAN NEWS.

(Special to the COLONIST.)

Fire Record.

ACTONVILLE, Ont., March 29.—Last night
the fine house and outbuildings of Camille
St. Amour, on William street, were de-
stroyed by fire.

Bishop Newham.

KINGSTON, March 29.—Yesterday Dr.
Newham, Bishop of Moosonee, who has been
here for some days, left for Montreal. He
will return to Fort Churchill, on Hudson's
bay, in June, and his home at Moose Fac-
tory in October.

He Saved Other Lives.

KINGSTON, March 29.—John O'Shea, a
noted life saver, died here last evening, aged
about sixty years.

Winnipeg Debentures.

WINNIPEG, March 29.—At a meeting of
the finance committee of the Winnipeg city
council to-night, tenders for a \$40,000 issue
of debentures bearing four per cent. interest
were opened. That of O. H. Hara & Co.,
Montreal, was accepted at 96 67. This is
the highest tender the city has ever re-
ceived.

Libelled the Engineer.

WINNIPEG, March 29.—The jury in the
libel case brought by Major Rutan, city
engineer, against the Tribune newspaper,
to-night returned a verdict of guilty, plac-
ing the damages at \$400 and costs. The
Tribune, Rutan complained, wrongly
charged him with crooked work in con-
nection with the construction of the piers of
the Boundary street bridge.

C. P. R. Lands.

WINNIPEG, March 29.—Information has
been received from Montreal of an im-
portant character regarding the ownership of
certain lands in the Lake Dauphin district.
The C. P. R. claimed the right of selecting
certain lands by virtue of their agreement
with the Dominion government. This was
disputed by other railway corporations
holding land grants, but a decision has been
given in favor of the Canadian Pacific. It
is the intention of the railway company to
immediately place these lands on the
market. Settlers who have equated on
the lands will first be dealt with.

THE TORONTO BUDGET.

Presbyterian Mission Appointments and
Grants—Convicts Provided For—The
Growth of Odd Fellowship.

TORONTO, March 29.—(Special)—The
home missions committee of the Presby-
terian church finished its business yesterday.
The committee appointed to report on what
sums should be given to the synods of the
Northwest and British Columbia presented
a statement recommending that \$17,000
should be given to the Northwest synod and
\$13,000 to the British Columbia synod. The
following ministers, students and catechists
were appointed to mission fields in the
synod of British Columbia: B. C. McAdie,
M. T. Murray, T. Manie, R. F. Hunter,
W. B. Findlay, Wm. McKeacher, A. Mo-
Alum, T. S. Glasford, R. R. Robertson, A.
D. Menzies, G. Menzies, R. T. Pack, A. G.
Hutton, J. Short, P. Nassmith, John Wal-
ker, W. G. Russell, M. T. Robertson and
G. R. Robertson.

At the court of general sessions this morn-
ing, Ambrose McTearnan was convicted of
counterfeiting, and sentenced to ten years at
Kingston penitentiary. Richard Lewis, for
shooting Thomas Martin last Christmas, got
five years at Kingston, and Thomas Mo-
Conkey, for firing his boarding house, re-
ceived two years at Central prison.

A. A. Dicks was to-day committed for
trial on the charge of murder. His house
was burned down, and in it Mrs. Dicks lost
her life.

According to the annual report of the
Grand Secretary of the Independent Order
of Oddfellows for the year ending December
31, 1894, there was a net increase in the
membership for the year of 1,104, being
within a trifle of the best showing since
1879. Twelve subordinate lodges were in-
stituted. The total membership in good
standing is 21,662.

Gardening tools at Cheapside.

NEWS OF THE PROVINCE.

Creamery Success in the Interior—Large Catch of Fur—A Rich Timber Section.

Advantages of Home Smelting—Progress of Operations in the Mining Country.

(Special to the Colonist.)

VANCOUVER.

VANCOUVER, March 29.—Contractor Mc-Gillivray will be instructed by the council to proceed with the street paving. The money for this purpose has been lying in the bank for a long period, and as it was voted for paving alone it could not be used for other purposes. The city was waiting in hope of having a double tram track laid on some of the streets.

WESTMINSTER.

NEW WESTMINSTER, March 29.—The members of the horticultural board have discontinued their lectures. Fruit growers in many sections state that their object lessons will do great good.

Mr. Thomas Cunningham states that there are in the area which was flooded by the Fraser valley high water last year some 400 farmers who are being supplied with seed upon a systematic and impartial basis. It is estimated that this year the crops will be larger than usual, and from four to six weeks earlier.

NANAIMO.

NANAIMO, March 29.—George Cassidy & Co., of Vancouver, have decided to discontinue their branch lumber yard in this city and have accordingly sold out to A. Haslam, M.P. The sale includes the stock of lumber and the land where the yard was located. D. S. Gow, who has been in charge here, goes to Vancouver where he will take another position with Cassidy & Company.

WELLINGTON.

During the past week those who have in hand the forwarding of incorporation matters have been enabled to advance their aims very materially. They have already secured names representing more than half the assessed value of the townsite, and as this is all that is required by law there now stands nothing in the way of securing letters patent of the incorporation of the town of Wellington. This when secured will be a great point achieved in the matter of local reform. It is the first step in the right direction, and the council, if so minded, will be able to give a great impetus to such things as athletic grounds, race track, public library, etc.

Mr. T. J. Corrigan, of Wellington, has made arrangements to lease the Nanaimo opera house from Mr. John Mahler. He will assume control at once.

The present indications are that Mr. Haslam will be returned by acclamation. Not a name has yet been mentioned as a Liberal candidate who would stand a ghost of a show against him, and this fact appears to be only too patent to the Liberals themselves. A good deal of bluster and noise has been made, but it is extremely probable that it will subside entirely and that Mr. Haslam, as the Conservative nominee, will be returned without recourse to the ballot box.

NELSON.

Much figuring is being done to get a whack at the Kaslo & Slokan railway contracts. It is understood the contractors are Foley Brothers & Guthrie, of St. Paul. G. O. Buchanan has an order to get out timbers for scows on which to transport the contractors' plant from Bonner's Ferry, and they will afterwards be used to transport the rolling stock to operate the road, which is to be a narrow gauge one.

Captain Gore made an attempt on Friday to get the steamer Kootenai through the narrows between Upper and Lower Arrow lakes, but he had to turn back after making about three miles through slush ice. He expects to be more successful on Tuesday. If the Kootenai gets through Manager Troup says navigation will be resumed on the Columbia river route.

Mud slides along Beaver creek are delaying trains on the Nelson & Fort Sheppard railway. Wednesday's train did not reach Nelson until Thursday afternoon, and Friday's southbound train did not get through to Weneta until midnight. It is understood the Columbia & Kootenai railway will resume operations on Tuesday.

The O. K., in Trail Creek district, is in reality a poor man's mine. It discovers hadn't a dollar, but they had sand; they were not afraid of work. For a long time they used a hand mortar for milling the richest pieces of the ore; and the ore was so rich that even by this crude method it yielded enough to pay all the working expenses. A small 5 stamp prospecting mill was purchased, and it has been paid out of the returns from the ore milled. Now the owners are thinking of putting in a 15-stamp modern gold mill. The mine is favorably located for working, and the ore need not be transported but a few hundred yards for milling.

The Tacoma smelter is one of the best managed in the United States, and has not been closed down since it was blown in—about three years ago. The bulk of the ore now smelted at it is the product of the mines of Kootenai. If our ores can be transported to Tacoma and smelted profitably, they can be smelted at home just as profitably to the mine owner. There is no reason why a ton of Trail Creek ore or a ton of ore from Tead Mountain should be shipped out of Kootenai for smelting. There is one smelter already in successful operation at Pilot Bay, and if the product of our mines is more than it can handle, why should not another be built? Sixty-two men find employment at the Tacoma smelter. Ten times that number will be employed at smelters in Kootenai within a year if our mine owners and our business men have but the courage to act.

The hospital directors have appointed Dr. Arthur medical officer for the next six months without salary. Pay patients are for the future to be charged \$12 per week for the public ward and \$15 per week for private wards, including medical attendance and drugs.

VERNON.

On Monday the city clerk received from Victoria a final reply to his communication to the Lieutenant-Governor on civil affairs. The answer took the shape of a writ for a new election for three aldermen. It recites the facts of the case, so well known to the citizens of Vernon, and commands the clerk to call for a new election, notice of which is to be given ten days from the date of the Lieutenant-Governor's writ, which is dated March 21. This will bring the date of election on April 13, as ten days will

have to elapse between the date of the notice given by the clerk and nomination, and three days between nomination and election.

The first shipment of butter from the new creamery recently established in White Valley by Mr. Murdoch MacKay arrived in the city this week and was secured by the Hudson Bay Company. The butter is of superior quality, as Mr. MacKay has had considerable experience in butter making in some of the largest creameries in the Northwest and Manitoba.

One of the richest timber sections of the interior is awaiting development up the Spallumcheen river near Mabel lake. It will be remembered that some months ago we gave a description of a trip taken up the river by Messrs. S. C. Smith, H. W. Wright, J. Christie and Boyce. They found timber in almost unlimited quantities and so situated that it could be driven down the stream to Enderby with little difficulty. Mr. Wright has had considerable experience in the lumbering business in Maine and on the Sound, and knows a good thing of this nature when he sees it. He grows enthusiastic when he describes the miles of fine cedar, hemlock and pine through which he passed on the trip. It is a question that will bear investigation by capitalists.

A larger catch of fur has been made this winter in the district than for some seasons past. Marten, lynx and wolverine have been unusually plentiful, and though the season was a very short one the trappers have all made good "packs." Marten of good quality average about \$2 each this spring. The only fur-bearing animals that are scarce are beaver, of which very few can now be found in this part of the province.

The last year or so has made a wonderful change in the appearance of the strip of land between Okanagan and Long lakes, known as the commonage. Some of the most promising little ranches in the district are now to be found on this once desolated location. There will be in the neighborhood of 1,000 acres broken this year and all the owners of the claims appear to be confident of success. They have the best of grounds for their hopes, as despite the dry season of last year several good crops of grain were raised on the first breaking. Among those who are doing the most work this spring are Messrs. Quinn, Faulkner, McAuley & Grant, A. Carr and C. Fahrni. An excellent opportunity for fruit culture is offered in this part of the district, which promises in a few years to be one of the most thickly settled and prosperous sections of the Okanagan.

John Donald, a well known business man at Kelowna, was arrested on Monday at the instance of his partner, T. Riley. They did business in the agricultural implement line until recently when they were closed up under a chattel mortgage. The case came before Price Ellison, stipendiary magistrate, on Tuesday, when Mayor Martin and E. J. Tronson, J.P., were associated with him on the bench. The information claimed that the prisoner had altered, falsified and mutilated the accounts of the firm with intention to defraud the creditors. Mr. A. Macdonald, for the accused, held that there were no grounds for criminal action, but that any grievance that Mr. Riley might have should be brought before the civil courts. He was perfectly certain that the whole matter could be cleared up so as to show that no intent to defraud existed. A remand was granted, to secure witnesses, until April 3, bail being fixed at two sureties of \$250 each and Mr. Donald's personal recognizance for \$500.

SHIPS AND SHIPPING.

Settlers for Port San Juan—Traffic to San Francisco—Notes of the Water Front.

If the weather is favorable this morning the steam schooner Mischief, Capt. Foot, will leave for Port San Juan with a cargo of horses, several head of cattle and settlers' effects. The whole cargo is consigned to the settlers at San Juan, and the stock, which comes from the Canadian Northwest, is intended for farming purposes. The Mischief will be back in time to leave here on her regular monthly West Coast trip on April 7. On her present trip she will go no further down the Coast than Port San Juan.

FOR SOUTHERN PORTS.

No special rates were allowed the passengers going South on the Umatilla, which sailed for San Francisco last evening, and in consequence she carried few voyagers, there being but two saloon passengers from Victoria. These were J. Kollo and Miss Mad Clifford. The passenger rates for the next steamer sailing, the City of Puebla, are fixed at \$10 and \$5.

MARINE NOTES.

The tug Mary Hare left for Nanaimo yesterday for coal, while the tugs Daisy, Vancouver and Falcon arrived the previous day with cargoes from the collieries.

Jessie Island, at the northern entrance to Departure bay, has been reserved by the Dominion government for lighthouse purposes.

The schooner Olga left Westminster yesterday with 550,000 feet of fir lumber and 261,000 laths. Her destination is San Francisco.

Steamer Danube is loading freight at Turner, Beeton & Co.'s wharf, preparatory to sailing for the North on Monday.

Included in the Charmer's outward cargo this morning was a big shipment of Oriental freight, ex steamship Tacoma.

The bark C. C. Funk will leave Westminster to-day lumber laden.

The barkentine Bartlett will load lumber at Brunette mills.

Steamer Maude leaves for West Coast points on Monday.

Dyspepsia seldom causes death, but permits its victims to live on in misery. Hood's Sarsaparilla cures dyspepsia and all stomach troubles.

THANKFUL TO-DAY.

Lorenzo Puliston, a Well Known Citizen of Sydney Mines, C.B., Tells How Burdock Blood Bitters Cured Him of Scrofula, Spots, Blemishes, Etc.

DEAR SIR—I am thankful to say that through the use of B.B.B. I am strong and healthy to-day. I was troubled with Scrofula and Spots and Blemishes all over my body. Being recommended to try B.B.B. I did so, and can positively say that it made a perfect cure. The first bottle was very successful, and before I had taken half of the second I was completely well. I recommend B.B.B. to all comers.

LORENZO PULISTON,
Sydney Mines, C.B.

1128 Acres
In the Heart
Of the Famous
Delta District,
Fraser River,
= FOR SALE

.....The land is the very best in
.....the District, and is situated four
.....miles from Ladner's, on the pro-
.....posed route of the C. P. R.,
.....Great Northern and Delta & East-
.....ern R.R. Good markets and
.....cheap freights are always to be
.....had for produce. The land is
.....specially adapted for dairy farm-
.....ing. At the present time there
.....are 350 acres in grass, 375 acres
.....being under fence, while all can
.....be readily brought under cultiva-
.....tion. There is a never-ceasing
.....flow of water from a spring—the
.....best supply in the District. The
.....land is all dyked, and that under
.....cultivation well drained, and the
.....floods have never overflowed any
.....portion of it. There is a six-
.....roomed house and three barns on
.....the premises.

.....The whole will be sold at a low
.....price and upon the most reasonable
.....terms. It is a chance seldom of-
.....fered for a man with the necessary
.....capital to acquire a property which
.....will pay a handsome profit. The
.....land, as population on the Coast
.....increases, must necessarily rapidly
.....advance in value.

.....For terms and any further par-
.....ticulars apply to "DELTA," care of
.....the Colonist office.

NEW ADVERTISEMENTS.
No. 243.
A BY-LAW
Authorizing the Expenditure of a sum of \$10,000, Borrowed under the Authority of the "Crematory By-Law," No. 127, for Lighting Purposes.

WHEREAS under and by virtue of section 41 of The Municipal Act Amendment Act, 1894, the Corporation of the City of Victoria is empowered, when it shall have a sum of money on hand which has been borrowed for a special purpose by the authority of a loan by-law, and when the Council deems it undesirable to expend for such purpose the money borrowed, to place before the ratepayers a by-law providing for the expending of such sum of money for some other purpose;

AND WHEREAS the said Corporation of the City of Victoria has a sum of ten thousand dollars on hand which has been borrowed for the purpose of establishing a crematory by the authority of a loan by-law known as the "Crematory By-Law," No. 127;

AND WHEREAS the Council of the Corporation of the City of Victoria deems it undesirable to expend the said sum of \$10,000 for the purpose of establishing a crematory, but deems it expedient that the said sum of \$10,000 should be expended for and towards the cost of constructing works for supplying the inhabitants of the Municipality of the City of Victoria with Electric Light;

THEREFORE the Municipal Council of the Corporation of the City of Victoria enacts as follows:

1. It shall be lawful for the Council of the Corporation of the City of Victoria to expend in and towards the cost of constructing works for supplying the inhabitants of the Municipality of the City of Victoria with Electric Light the sum of \$10,000 which the said Corporation now has on hand, and which has been borrowed under and by the authority of "The Crematory By-Law," No. 127, for the purpose of establishing a crematory, the said Council deeming undesirable that the said sum of \$10,000 should be expended for the purpose of a crematory.

2. This By-law shall, before the final passage thereof, receive the assent of the electors of the said Corporation in the manner provided by the Municipal Act, 1892, and amendments thereto, and shall take effect on the 28th day of March, 1895.

3. This By-law may be cited as the "Electric Lighting By-law, 1895."

Passed the Municipal Council the 27th day of February, 1895.

Received the assent of the electors the 19th day of March, 1895.

Reconsidered, adopted and finally passed the Council this 21st day of March, 1895.

[L.S.] **JOHN TEAGUE,** Mayor.

WELLINGTON J. DOWLER, C. M. C.

NOTICE.
The above is a true copy of a by-law passed by the Municipal Council of the City of Victoria on the 21st day of March, A.D. 1895, and all persons are required to take notice that any one desirous of applying to have such by-law, or any part thereof, quashed, must make his application for that purpose to the Supreme Court within one month next after the publication of this by-law in the British Columbia Gazette, or he will be too late to be heard in that behalf

LESSONS OF THE WAR.

It Has Amply Proved the Helplessness of Ships When Fighting Well Constructed Forts.

Modern Artillery Fire So Terrible That One Big Shell Will Disable a Vessel.

TOKIO, March 12.—(United Press correspondence per steamer Tacoma.)—When China entered upon this war her great strength lay in her fleet, and of her fleet the Peiyang squadron contained the cream. Its two iron-clads were the most powerful vessels in the East, after H.B.M.'s Centurion. With them were 12 cruisers, all fine modern ships; 10 gunboats, some of an exceptionally efficient type, and 12 torpedo boats; the total number being 36. Every one of these has been either sunk, destroyed or taken. The details of the disasters are, one taken and one so crippled as to necessitate beaching, in the fight of July 25; four sunk and one run ashore, at the battle of September 17; one (a torpedo boat) wrecked; five sunk and 12 taken at Wei-Hai-Wei, and 11 torpedo boats captured or destroyed on February 7. Thus the whole Peiyang squadron is wiped out of existence. The Japanese, on the other hand, have not lost a single ship except two torpedo boats. Whatever be the difference in skill between the handling of the two navies, it must be confessed that luck is on the Japanese side. Such a record is more than they could reasonably have hoped to achieve.

FOUR VERSUS SHIPS.

One of the facts brought into strong prominence in connection with the recent operations at Wei-Hai-Wei is the helplessness of ships against well constructed forts. On the islands of Liukung and Zhihi at the entrance to Wei-Hai-Wei bay there were two forts admirably located and armed with disappearing guns. The Japanese ships and the mainland forts, the artillery of which, after falling into Japanese possession co-operated with the fleet in bombarding the insular defences, never succeeded in touching these forts once. They remained to the end absolutely unimpaired by the storm of iron directed against them. Similar immunity was enjoyed even by an ordinarily constructed fort on Liukung island. The Japanese ships did it no harm whatever. On the other hand, the Chinese gunners in the forts, though not conspicuous for their skill, succeeded in hitting, and more or less seriously damaging, no less than seven of the Japanese ships, killing 29 men and wounding 36. Had the attack been a little later, it is doubtful whether the Japanese squadrons would not have been held completely at bay so far as the forts were concerned, for the Chinese were engaged in constructing on the highest eminence of Zhihi island a fort which, firing from a height of 400 feet above the sea level, would have been a terrible foe. Although the ascent to the position chosen for this fort is so steep as to be difficult even for a pedestrian, the Chinese had succeeded in dragging to the top two 28-cent. guns, and two others were waiting on the beach to be placed in the same position. Another week would have seen this fort in fighting order, and had its cannonading been added to that of the five other forts on the islands, any naval force attempting to bombard the place must have suffered terribly.

MODERN ARTILLERY EFFECTS.

The experiences of the Japanese ships engaged in the bombardment of Wei-Hai-Wei show how terrible is the effect of modern artillery fire. One big shell fairly planted almost suffices to deprive a medium sized vessel of fighting capacity. Gruesome stories are told of the havoc wrought by a solitary missile. The Takushiki, for example, which led the attacking squadron in the bombardment of the insular forts at Wei-Hai-Wei on the 7th of February, was struck by a shell which, entering from the starboard bulwark, passed out on the port side. A sailor standing in the path of the missile was of course rent into fragments. The shell then cut an iron stanchion three inches in diameter and finally tore its way through the port bulwark and dropped into the sea. Two sailors standing on either side of the stanchion at the time were dismembered, their legs and arms being hurled into the air, lodged in buckets, or dashed flat against planks. Another shell hit the Tenryu. Her second in command was conning the ship at the time. His body was swept into the sea, one of his legs remaining on the bridge. A boat was immediately lowered, but nothing except his head could be found floating in the water. Immediately after the shell struck the ship a tornado of iron and wood splinters blew into the engine room, wounding five men. Instances of like nature could be multiplied, but there is an appalling sameness about them all. The fact is that the incomparable greater vulnerability of a ship handicaps it seriously in a fight with a fort. A dozen shells from a ship's guns may exhaust their energy upon the massive parapets of a fort, whereas one shot from the heavy guns of the latter cannot fail to inflict cruel injury upon the ship if it strikes her. The question of a moving and a stationary target seems to be of secondary importance.

THRIFTY MOTHERS CAN DRESS THEIR LITTLE ONES HANDSOMELY AND CHEAPLY.

Thrifty and economical mothers rarely buy new clothing for their children, yet the little ones are always well and handsomely dressed for school and church. This is the result of using Diamond Dyes, which make all the fashionable colors with but little work.

Suits for boys and little dresses and jackets for the girls that have faded and become discolored, are quickly transformed into new garments by the magical working of Diamond Dyes.

These wonderful package dyes cost but 10 cents per package; they are simple to use—indeed any child can use them and get a grand color. The colors produced by Diamond Dyes are fast and strong, and in many respects far superior to the colors used in large dyeing factories.

When buying dyes for home use see that your dealer gives you "Diamond Dyes"; imitation and worthless dyes will ruin your materials and garments.

Rheumatism Cured in a Day.

South American Rheumatic Cure, for Rheumatism and Neuralgia, radically cures in 1 to 3 days. Its action upon the system is remarkable and mysterious. The first dose greatly benefits. Sold in Victoria by D. E. Campbell.

WORTH A GUINEA A BOX.

BEECHAM'S PILLS

constitutes a family medicine chest.

Sick Headache, Weak Stomach, Loss of Appetite, Wind and Pain in the Stomach, Giddiness, Fullness, Swelling after meals, Dizziness, Drowsiness, Cold Chills, Flushings of Heat, Shortness of Breath, Costiveness, Blisters on the Skin, Disturbed Sleep, and all nervous and trembling sensations are relieved by using these Pills.

Covered with a Tasteless and Soluble Coating.

Wholesale Agents, Evans & Sons, Ltd., Montreal.

For sale by all druggists.

A TEMPERANCE SALOON.

The Novel Institution Established by Bishop Fallows of the Reformed Episcopal Church.

(From the Literary Digest.)

Bishop Fallows, of the Reformed Episcopal church, has recently opened a "beer saloon" at Chicago for the purpose of promoting the cause of temperance reform. His plan is to provide all the outward marks of an ordinary saloon, minus alcoholic beverages. A non-alcoholic imitation of beer is dispensed, which, according to Bishop Fallows, is a pure brewed extract of hops and malt, which every beer drinker will declare to be a good, bitter drink. The saloon has the free-lunch counter, the bar, fixtures, cigar-case and table for games. Portraits of prominent reformers adorn the walls.

Bishop Fallows hopes to become a formidable competitor of the ordinary saloon-keeper. Large quantities of the non-intoxicating beer are sold daily, according to newspaper reports, and the experiment has thus far been very successful. In explanation and defence of his plan, Bishop Fallows says:

"What has the church or temperance movement to offer in a material way in competition with the saloon? Nothing. I have been investigating the saloon business. I have had men at work finding out all about their methods, and the business principles on which they conduct their business. We propose to apply those principles in the conduct and management of places where we can offer everything that the saloon does in the way of warmth and light and a place to sit down, and a place to get something to eat and something to drink, except intoxicants. I believe these places can be made both self-supporting and self-propagating. For five cents we can furnish a hot drink of coffee, tea or other non-intoxicating drinks, together with a pretty fair meal of bread, meat, and potato salad or something of that sort. For ten cents we can do very much better. It is an experiment that has proved successful in London, Liverpool, Manchester, and other English cities. If it proves successful a hundred will, and we want to locate them right where they are needed. I believe such a work as this, if it proves successful, will be worth fifty years of merely intellectual temperance work. The more I study this matter the more I am impressed with its possibilities."

That the Chicago saloon keeps regard Bishop Fallows' scheme as effective seems evident, for they are reported as having resolved to boycott the coopers who supply barrels for the new temperance beverage.

MONEY FOR CABLES.

Postal Telegraph Stocks Increase to Fifteen Million Dollars.

NEW YORK, March 29.—A special meeting of the Postal Telegraph cable company was held yesterday at the company's office here, to consider the question of increasing the capital stock of the company from \$10,000,000 to \$15,000,000. The money derived by the additional issue of stock is to be used for the purpose of extending the service and paying for the extensions that have already been made. One of the principal extensions was the one completed in November of last year, when the company built one of the heaviest lines in operation in this country. The line extends from Chicago to St. Louis, and thence along the Atchison, Topeka and Santa Fe railroad to San Francisco, and the major part of the increase will be used for the payment of the debt thus incurred. There were 74,466 shares out of \$6,000 represented at the meeting, and they voted in favor of the \$5,000,000 increase.

STOCKS IN NEW YORK.

NEW YORK, March 29.—There were no notable features in connection with to-day's market:

GRATEFUL-COMFORTING.

EPSS'S COCOA
BREAKFAST-SUPPER.

"By a thorough knowledge of the natural laws which govern the operations of digestion and nutrition, and by a careful application of the fine properties of the cocoa, Mr. Epss has provided for our breakfast and supper a delicately flavoured beverage which may save us many heavy doctors' bills. It is by the judicious use of such articles of diet that a constitution may be gradually built up until strong enough to resist every tendency to disease. Hundreds of subtle maladies are floating around us ready to attack wherever there is a weak point. We may escape many a fatal shaft by keeping ourselves well fortified with pure blood and a properly nourished frame."—Civil Service Gazette.

Make simply with boiling water or milk. Sold only in half-pound tins, by grocers, labelled thus:

JAMES EPSS & CO., Ltd., Homoeopathic Chemists, London, England. ocl6

PHOTO ENGRAVING
METAL CUTS OF Buildings, Portraits, Letters, etc. Better and cheaper than wood cuts or electrotypes.

MARVELOUS LINIMENT & MIXTURE Cures Rheumatism

—AND ALL KINDS OF—
SPRAINS, PAINS AND ACHES.

READ A FEW TESTIMONIALS.

Dean & Cryderman, Victoria, B.C., Jan. 17, 1893.
GENTLEMEN.—Was troubled with rheumatism so bad I could hardly walk, and was cured by using your Marvellous Rheumatic Cure.
A. McNEILL,
New York Hotel.

Dean & Cryderman, Victoria, British Columbia.
DEAR SIRS.—Had a bad sprained ankle, used Marvellous Liniment and was entirely cured in three days.
GEORGE SCHMIDT,
Stultz Restaurant.

To Dean & Cryderman, druggists,
GENTLEMEN.—With much pleasure I add my testimony to your valuable Marvellous Rheumatic Cure. For three months I suffered terrible pain. Could not move only by the aid of two sticks. I have only taken two bottles of the medicine and two of the Liniment, and I can now go without sticks, and hope after the third bottle to go to work.
Yours very thankfully,
S. NORMAN,
48 Oswego street, corner Michigan street.

Food for the Hungry.

The undersigned desires to call the attention of parties interested to the fact that temporary provision has been made for the relief of those in the city who are suffering from lack of necessary food.

The services of the officers of the Salvation Army, which have kindly been offered free of charge, have been accepted and arrangements made for the operation of a "Food Depot" in a room at the rear of the Salvation Army Barracks, Broad street.

The depot will be in running order on and after Tuesday, the 29th instant.

Breakfast may be had from 9 to 11 a.m., and supper from 4 to 6 p.m., and will be served to those holding tickets, which may be procured at the Barracks for a nominal sum, or in absolutely destitute cases, free.

Parties wishing to assist the movement may provide those whom they believe to be needy, with tickets, or may send in supplies to the Depot at any time during the day.

The undersigned would commend the Depot to all charitably disposed persons as an object most worthy of their practical support.

JOHN FRAGUE, Mayor.
Victoria, January 26, 1895. ja27

"Fire Insurance Policy Act, 1893," as Amended by the "Fire Insurance Policy Amendment Act, 1895."

NOTICE is hereby given that His Honour the Lieutenant-Governor in Council has further postponed the commencement of "An Act to Secure Uniform Conditions in Policies of Fire Insurance" from the 1st day of April, 1895, to the 1st day of July, 1895.
JAMES BAKER,
Provincial Secretary.

 Six months 1 25
 Three months 75

Subscriptions in all cases are payable strictly in advance.

ADVERTISING RATES:

REGULAR COMMERCIAL ADVERTISING as distinguished from everything of a transient character—that is to say, advertising referring to regular manufacturing and business establishments, Government and Land Notices—published at the following rates: Per line, solid nonpareil, the duration of publication to be specified at the time of ordering advertisements. More than one fortnight and not more than one month, 60 cents.

More than one week and not more than one fortnight, 40 cents.

Not more than one week, 30 cents.

No advertisement under this classification inserted for less than \$2.50, and accepted only for every day insertion.

Theoretical advertisements, 10 cents per line.

Advertisements unaccompanied by specific instructions inserted till ordered out.

Advertisements discontinued before expiration of special period will be charged as if continued for full term.

Liberal allowance on yearly and half-yearly contracts.

WEEKLY ADVERTISEMENTS—Ten cents a line solid nonpareil, each insertion. No advertisement inserted for less than \$2.

TRANSIENT ADVERTISING—Per line solid nonpareil—First insertion, 10 cents; each subsequent consecutive insertion, 5 cents. Advertisements not inserted every day, 10 cents per line each insertion. No advertisement inserted for less than \$1.50.

Where cuts are inserted, they must be ALL METAL—not mounted on Wood.

THE RAILWAY BELT.

British Columbians in all parts of the Province are no doubt glad to hear that the disputes connected with the Railway Belt have been settled at last. Those disputes were the cause of much annoyance and uncertainty, and have tended to retard the settlement of the interior of the Province and the development of its resources.

The details of the arrangement are not contained in our Ottawa telegram, but it can be inferred from it that there will be no uncertainty hereafter as to the boundaries of the Railway Belt, or as to the validity of titles given for land within its borders.

It can readily be understood that to properly define the Railway Belt has been no easy matter. The line of the Canadian Pacific Railway through a large extent of mountainous country is necessarily so devious that accurately to measure a strip of land twenty miles broad on each side of it is as difficult a problem as could be submitted to the most skillful land surveyors. It must be remembered it is one thing to mark off such belts on a map or plan and another to survey and locate them so that the land they contain can be readily administered by either the Dominion or the Provincial Government. The settlement, as our correspondent says, must have involved a good deal of give and take. Happily much of the land is of such a nature that its exact admeasurement and apportionment are of little consequence to either Government. The important thing was to have a definite settlement, so that it could be easily ascertained what land belongs to the Dominion and what to the Province. From this time forward it seems that the settler or the miner who purchases land within, or supposed to be within, twenty miles of the railway need have no misgivings as to the soundness of his title. He is secure in any event, the two governments concerned having settled all disputes both as to ownership and boundaries. This is as it should be, and the Province is under a debt of obligation to the Chief Justice for having satisfactorily settled this much vexed and most aggravating Railway Belt question.

It is to be regretted that the Songhees Reserve question was not settled at the same time. The reserve is an eyesore to all Victorians who take a pride in the appearance of their city, and it is also a serious obstacle in the way of its improvement. It is at the same time of comparatively little value to the Indians who occupy it, as they cannot sell it and will not improve it. It is not right that the Reserve should be allowed to remain in the hands of those who are not in a position to make a good use of it. The Indians, too, would be much better off in every way, if they were placed on a tract of land the surroundings of which would be more congenial to their tastes and habits and where they would not be exposed to temptations which they have hitherto proved themselves unable to resist. A fair exchange would be for the benefit both of the Indians and the citizens of Victoria. The Government can have no object in permitting a piece of land so necessary to the progress of the city virtually to lie waste. It is of very little use to the Indians, and its being in their possession is a serious drawback to this city.

THE HOSPITAL REPORT.

The Report of the Special Committee of Inquiry into the general management of the Jubilee Hospital is a document both important and interesting. The Jubilee Hospital is an institution of which not only the citizens of Victoria but the inhabitants of the whole Province ought to be proud. We do not believe that there is on this continent a city of the same size as the capital of British Columbia that can boast of a hospital as handsome, as well equipped and as well managed as that which British Columbians have built and established in honor of their beloved Queen.

The Report is exceedingly favorable. The Committee finds every department of the Hospital in good working order. They have discovered no abuses and they have no complaints to make of the management. The tables contained in the report show that it has done good work, and it speaks in the highest terms of the medical and the nursing staffs. The only inference that can be drawn from the report is that it is a model institution and quite capable of accomplishing the ends for which it was established. All that the Jubilee Hospital wants, according to the report before us, are a few improvements and better support. The financial question appears, in fact, to be the only one which is likely to give the directors of the hospital any uneasiness.

The cost of management has decreased since a year ago from \$1.56 per patient to \$1.14. The average for Eastern hospitals, we are told, where prices are low and labor cheap, is 91 cents per patient per diem. This is a difference of 23 cents per patient per day, which, considering the difference of prices, appears to us quite a moderate sum. It is, however, possible that by judicious economy the cost of the Jubilee patient could be brought even nearer to the Eastern average.

The Report shows that the city sends by far the greater number of free patients to the Hospital. The number of days' stay of city free patients was over 10,000. This number, at the cost of \$1.14 a day, requires an expenditure of \$11,400. It must be remembered that the Jubilee hospital is not endowed. It has no revenue of its own. It must be supported by the money given it by the province, by the city and by individuals. The city is, of course, under an obligation to look after its sick poor. It should not allow them to be a burden on the hospital directorate. It should in justice pay the expenses of every patient it sends to the institution. It has been found that the public generally are of this opinion. Many say, when asked to contribute to the funds of the hospital, "Let the Corporation look after their city patients." "It is their bounden duty to do so. They must not expect us, when we are taxed for the support of the Hospital, to contribute voluntarily to its funds as well." Knowing this, the Corporation should take measures to pay the Hospital expenses of the whole of the indigent sick. This they should do ungrudgingly, for they are lucky in having a Hospital built and equipped for their use. They should remember that it is much easier to pay their fair share towards the maintenance of the Jubilee Hospital than to build, furnish and support one for themselves. The City Council will not, we trust, hesitate to do what is fair in this matter, for if they pay their proportionate share towards the expenses of the Hospital, it can be easily kept in an efficient condition. It was because the hospital directors were in former years obliged to take so many city patients without receiving any adequate return, that its funds became low, and the directors were obliged to run in debt. Let the city do its duty and the Hospital cannot only be kept in an efficient condition, but its directors can, as time goes on, make all the improvements that are required.

There has been some difficulty among the doctors respecting the medical and surgical staffs. Surely the directors and the doctors between them can settle this matter amicably and satisfactorily to all concerned. Let inquiry be made into the way in which public hospitals are managed in other cities, and it would not, we think, be very hard to fix upon a plan suitable to the circumstances of Victoria and the Jubilee Hospital. Let those whose duty it is to make an arrangement go about it in the proper spirit, and we are very sure that it would not be a tenth part so difficult as it now appears to some of those interested.

WORSE AND WORSE.

The leading article in yesterday's Times on the waterworks question contains almost as many lies as it does sentences. It says that the COLONIST "is not in favor of improving Elk Lake water." It is opposed to spending money on the filter beds and for the purpose of conserving the rainfall, simply because it wishes to sacrifice the public for the benefit of the individual. This is not only not the truth but it is the very opposite of the truth. The COLONIST is in favor of improving Elk Lake water. It is not opposed to spending money on the filter beds and for the purpose of conserving the rainfall, and it does not wish to sacrifice the public for the benefit of the individual.

What is the head and front of our offending? We are of opinion that the City Council should follow the advice of the Eastern engineers, Messrs. Keating and Haskins. Because we say that these gentlemen have given the Council good advice the Times scolds like a fishwife. The violence of the Times is indeed suspicious. It looks very much as if it, or some one connected with it, had a peculiar interest in wishing the Council to disregard the sound and disinterested advice of the gentlemen whom they had consulted with respect to the filter bed plans. It surely does not love villification and abuse so well that it denounces the COLONIST in the strongest terms it has in its vocabulary—that are fit for publication—merely because we approved the advice tendered by men well qualified to give advice on such a subject, for this is, as our readers know, really all that we have done in the matter. Bearing this in mind, what can be more suspicious than the violent language in which our contemporary indulges. Here is a specimen of it:

"Would it not be the height of madness to follow the knavish advice of those who are seeking to 'bear' the property of the people in order—let it be plainly stated—that private speculators may step in to make money at the expense of the masses?"

Seeing that the advice which we ask the

Committee finds every department of the Hospital in good working order. They have discovered no abuses and they have no complaints to make of the management. The tables contained in the report show that it has done good work, and it speaks in the highest terms of the medical and the nursing staffs. The only inference that can be drawn from the report is that it is a model institution and quite capable of accomplishing the ends for which it was established. All that the Jubilee Hospital wants, according to the report before us, are a few improvements and better support. The financial question appears, in fact, to be the only one which is likely to give the directors of the hospital any uneasiness.

The cost of management has decreased since a year ago from \$1.56 per patient to \$1.14. The average for Eastern hospitals, we are told, where prices are low and labor cheap, is 91 cents per patient per diem. This is a difference of 23 cents per patient per day, which, considering the difference of prices, appears to us quite a moderate sum. It is, however, possible that by judicious economy the cost of the Jubilee patient could be brought even nearer to the Eastern average.

The Report shows that the city sends by far the greater number of free patients to the Hospital. The number of days' stay of city free patients was over 10,000. Council to follow is the advice of eminent engineers—advice which they considered it their duty to offer—it does look singular to see the Times stigmatize it as "knavish advice." Are those engineers knaves? Are they seeking to "bear" the property of the people that private speculators may step in and make money? Is there any one in this city or anywhere else who has this opinion of the engineers and of their motives?

As the Times goes on it loses all control of itself—or for purposes of its own it stimulates madness most cleverly. This is how it raves: "Ruin the waterworks following the COLONIST's advice (which is that of the Eastern engineers) and at once the price of 'privileges' will go up enormously." Was it to "bull" the price of "privileges" that the Eastern engineers advised the Council to "investigate" before they spent any more of the people's money, or was it because they had a strong conviction that if the money were spent it would be wasted?

We are sorry that the Times is too greatly excited to answer the very simple question we asked it a day or two ago. Perhaps it would do no harm to repeat it here: How can the Equimol Waterworks Company be benefited by placing the city's waterworks on what the best authorities that have yet been consulted declare is a proper footing? Our contemporary is, we know, not fond of answering questions, but we, as well as a good many others, would like to know what evil would befall the city if the Council followed what the Times calls the knavish advice of Messrs. Keating and Haskins. This is not a political question. The Times can do no harm to its party by answering it clearly and fully.

A Great Battle

is continually going on in the human system. The demon of impure blood strives to gain victory over the constitution, to ruin health, to drag victims to the grave. Hood's Sarsaparilla is the weapon with which to defend one's self, drive the desperate enemy from the field, and restore bodily health for many years.

Hood's Pills cure nausea, sickness, indigestion and biliousness. 25c.

AUCTION SALES.

March 30—Furniture etc., Piny E. Davis & Co.
April 1—Personal effects, H. Cuthbert & Co.
April 2—Furniture, H. Cuthbert & Co.
April 2—Furniture, etc., W. T. Hardaker.

An important sale of fine office furniture is announced for 11 o'clock this morning by Piny E. Davis & Co., 37 and 39 Yates street. The articles to be disposed of comprise the furnishings of two large land offices, desks, letter presses, stands and baths, furniture, stoves, carpets, etc.

THE CITY.

HIS HONOR the Lieutenant-Governor has signified his intention of being present at the Sergeants' entertainment on Tuesday next.

MESSRS. A. D. McKee, Milton Gillanders and George Good have been appointed drainage commissioners for the township of Chilliwack.

A white man named John Doyle was in the police court yesterday charged with stealing several pieces of cordwood, he having none of his own. A conviction was recorded and the prisoner discharged.

A SPECIAL meeting of the shareholders of the Victoria and Sidney Railway Company is to be held at the offices here on Monday, April 8, for the adoption of by-laws and the election of three directors to fill vacancies.

TO DAY'S police court session promises to be an interesting and a protracted one. Four or five culprits have been summoned for living on the Songhees reservation, and a case of sidewalk obstruction is also to receive attention.

NOTICE is given in the last issue of the B. C. Gazette of the cancellation of the reserve of the lands extending back for one mile on either side of the line of the Nakusp and Slocan railway. These lands will now be thrown open to pre-emption in three months.

W. G. FRASER and J. L. McKay, for themselves and numerous other residents, have given notice that application will be made on May 1 for the incorporation of Wellington as a town municipality. The district proposed to be included in the limits of the town comprises some eighty acres, parts of sections 3, 4 and 5 of Wellington district.

"A TRIP through the United States," illustrated with fine new views by the aid of the stereopticon under the management of Rev. G. S. King; a piano solo by Miss Bertram, a quartette by the Victoria West Quartette Club, a vocal solo by Mr. A. Wheeler, and an auto harp and harmonica duet will form the programme for the popular concert at the Y.M.C.A. to-night.

THE "Cariboo Gold Fields, Limited," is the title of the company, with head offices in England and a capital of £100,000, that has just been formed to carry into effect the agreement made on the 21st of November last between the Whittier Gold Concessions, Ltd., and Mr. William Wiggall Ellwood. Yesterday's issue of the Gazette notes the registration of the new company.

THE city council held private meetings both afternoon and evening yesterday, the estimates and water improvement being the subjects of consideration. It is expected that the memorandum of proposed expenditure will be ready for presentation to the public at next Monday's meeting of the board. Ald. Bragg will at this meeting introduce important amendments to the water works regulations by-law.

At yesterday's meeting of the sewerage commission various accounts were passed for payment, and the commissioners were waited upon by Hon. Robert Beaven in connection with the order to the owners to connect the Green-Worlock bank property with the sewer. Hon. Mr. Beaven explained that no funds were available for the purpose, and requested that the matter be left in abeyance. No decision was reached on the point by the commission.

A DISPATCH from San Francisco gives some idea of the profits the lessees made out of the sealing business, which by the aid of the U.S. government they were determined to keep to themselves. It says: "The trial of the Wasserman-Sloss suit to-day revealed the enormous dividends made by the Alaska Commercial Company out of its sealing contract. Dividends amounting to \$800 on every \$100 share were paid for five years. The firm had millions on deposit, acquired by the capture of seals. Sloss bought some of the shares from Wasserman for \$60 each."

THE Montreal Hydraulic Gold Mining Company of Cariboo, Ltd., is the somewhat formidable name adopted by a new mining corporation with capital of \$250,000 that has been formed to take over the mineral properties, claims and business of the Montreal and British Columbia Prospecting and Promoting Co., Ltd., Cariboo being the chief scene of operations. The head offices of the new company are to be at Vancouver, and the provisional trustees are P. A. Paterson and John Kennedy of Montreal, and F. C. Innes, J. M. Browning and S. O. Richards of Vancouver.

CAPTAIN HUNTER, of smuggling renown, was the defendant in two police court cases yesterday, the one in the city and the other in the provincial police court. In the former he was charged with common assault upon an Indian woman named Mary, the offence being alleged to have been committed on the night of the 19th inst. Through his legal representative Captain Hunter pleaded guilty, explaining that though he did not remember anything about the matter, he was in liquor on the day in question and everything might have occurred as stated. The fine was \$10 with \$2 costs. In the provincial court the charge was trading without a license, and in this a somewhat interesting point presented itself. The trading was admitted and also the fact that no license had been procured; it was, however, contended that the trading was done at sea, 200 yards from shore, and therefore not

HELP FOR THE HELPLESS.

The Fund For Mrs. Law and Her Little Fatherless Ones is Growing.

Heartfelt Sympathy for the Destitute—Every Friend Can Surely Aid.

Mrs. William Law and her three little ones, the eldest of whom is scarcely more than a baby, have by the terrible accident that robbed them of husband and father been left absolutely destitute. Poor Law had been for eight months previous to the disaster sick and unable to work. When the Velos went down in the wild storm of the 22nd he was weak and sick and ill prepared to stand against the fierce assault of wind and water. His widow was left with less than a dollar in her possession for the maintenance of herself and her children.

The people of Victoria are now asked to show their sympathy with the bereaved family—and to show it in a practical way. Everyone is asked to give something according to his means. If a dollar is too much for the shrunken purse, surely twenty-five cents or half a dollar can be spared, and the two-bit piece heartily given shows the sympathy of the giver as much as the dollar subscription will be gladly received at the Colonist office, by Adjutant Archibald of the Salvation Army, or by the teachers of the public schools. All will be promptly acknowledged in these columns.

The fund for the relief of the sorely tried little family grows steadily. It started Wednesday with \$4.50; by Thursday night it amounted to \$90.25; it is now \$172.50. The children are yet to be heard from, and the prospects are bright for the realization of the COLONIST'S hope that \$500 will be obtained for the widow and her fatherless little ones within the fortnight. Not only are the dollars coming in, but many—very many—expressions of sympathy that are cordial and from the heart.

Below are acknowledged with thanks yesterday's subscriptions. It is asked that all work together with a will to-day, so that the close of the week may see \$250 in hand.

THE GRANGER ENGAGEMENT.

Weakness of Support Noticeable in the Presentation of "Inherited"—Brilliant Lighting Effects.

Despite the fact that Miss Maude Granger was at her best last evening, the limited audience who witnessed her presentation of "Inherited" at the Victoria were not satisfied. The play, which is by no means new to American audiences, is an intensely emotional one—the story of a true-hearted, loving woman and well-to-do wife, upon whom the curse of hereditary insanity descends, separating her from husband and child to pass seven awful years in a madhouse. Released by fire, which consumes the asylum, she finds the cloud has lifted from her brain, and returns overjoyed to her home, only to find that the law has freed her husband and that he has married her sister. Her mother love saves her from returning madness, and causes her when sickness stretches her child in a sleep which she mistakes for death, to end her own unhappy existence with a deadly poison. The play is terrible in its dramatic intensity, while crude to a degree in many details. It therefore requires interpretation by the most capable actors, in order that the many improbabilities shall not obtrude themselves, and the strength of the conception itself may command appreciation. This it unfortunately has not in this engagement. While Miss Granger enters heart and soul into the one interest-focusing character, investing it with a terrible fascination—the commingling of womanly sweetness and truth with maniacal petulance and suspicion—she cannot save the play with her present support, of whom Mr. Edmund Hayes (as Julian) alone deserves mention. The several ladies and gentlemen last evening walked through their parts in painfully mechanical fashion, and while Miss Granger's Helen was doubtless the more brilliant for the contrast, the innovation can scarcely be commended. "Inherited" is not a play to be enjoyed at any time—last night it could not be appreciated. It is explained that the company is more capable in the "Fringe of Society," which is the bill for this evening, the second and last performance, as it has been deemed best to cancel the matinee.

After last evening's final curtain fall, Manager Jamieson treated his audience to a ten minutes' exhibition of the newly introduced lighting effects, the Victoria being now one of the best equipped houses in this respect west of Chicago. All the various details produced by dimmers, colors, bunch lights and electric flashes were introduced, and the audience expressed their appreciation by frequent applause. They were taken into the confidence of the people of stageland and shown many of the mysteries of effect—which will doubtless be remembered with pleasure and satisfaction for years to come.

CARLYLE AND THE QUEEN.

The Sage of Chelsea Writes to His Sister That He Never Met a Politer Little Woman.

The following letter from Carlyle to his sister Jean, wife of the late Dr. Aitken, of Dumfries, which has recently been published for the first time, shows how that divinity which doth hedge a Queen impressed even the crabbed and dyspeptic Scotch philosopher. It is difficult to find in all that has been written about Her Majesty a more pleasant or a more vivid pen picture of those gracious characteristics which have made Victoria beloved. The following is the letter:

"CHELSEA, March 11, 1869.
"DEAR JEAN:—Mary, I find, has inserted for you a small letter along with the one that belongs to the doctor. I have nothing of my own in the form of news beyond what that 'child of nature' will have said.

"But my present business is to tell you exclusively of the Queen's interview, for which great object I have only a few minutes. Swift then, if my poor hand but would! 'Interview' took place this day gone a week. Nearly a week before that the Dean and Deaneess (who is called Lady Augusta Stanley, once Bruce, an active, hard and busy woman) drove up here, and, in a solemnly-mysterious, half quizzical manner, invited me for Thursday, 4th, at 5 p.m.—'must come; a very high, indeed highest, personage has long been desirous,' etc. I saw well enough it was the Queen's incognito, and briefly agreed to come. 'Half-past 4, come you,' and then went their ways.

"Walking up at the set time, I was ushered into that long drawing-room in their monastic edifice. I found no Stanley yet there; only at the further end a tall old year-pole (2) of a Mrs. Grote, the most wooden-headed woman I know in London, or the world, who thinks herself very clever, etc., and the sight of whom led me to expect Mr. too, and perhaps others, as accordingly in a few minutes fell out. Grote and wife, Sir Charles Lyell and ditto, Browning and myself; that I saw to be our party. 'Better than nothing,' thought I, 'these will take off the edge of the thing, if edge there be,' which it hadn't, nor threatened to have.

"The Stanleys and we were all in a flow of talk, and some flunkeys had done setting coffee-pots and tea-cups of a sublime pattern, when Her Majesty, punctual to the minute, glided in, escorted by her dame-in-waiting (a duchess dowager of Athol) and by the Princess Louise, decidedly a very pretty young lady, and clever too, as I found out in talking to her afterward. The Queen came softly forward, a kindly little smile on her face, gently shook hands with all the three women, gently acknowledged with a nod the silent bows of us male monsters, and directly in her presence every one was at ease again. She is a comely little lady, with a pair of kind, clear and intelligent grey eyes; still looks almost young (in spite of one broad wrinkle which shows on each cheek occasionally); is still plump; has a fine, low voice, soft; indeed, her whole manner is melodiously perfect. It is impossible to imagine a politer little woman; nothing the least imperious; all gentle; all sincere, looking unobtrusively—rather attractive even; makes you feel, too (if you have any sense in you), that she is Queen.

"After a little word to each of us—to me it was, 'Sorry you did not see my daughter' (princess of Russia), or 'all sorry,' perhaps so; which led us to Potsdam, Berlin, etc., for an instant or two. To Sir Charles Lyell I heard her say 'gold in Sutherland,'—but quickly and delicately cut him short in replying. To Browning, 'Are you writing anything?' (who has just been publishing the absurdest things!) To Grote I did not hear what she said, but it was touch and go with everybody—Majesty visibly without interest, or nearly so, of her own.

"After this, coffee (very black and muddy) was handed round, Queen and three women taking seats, Queen in the corner of a sofa, Lady Deaneess in opposite corner, Mrs. Grote in a chair intrusively close to Majesty; Lady Lyell modestly at the diagonal corner; we others obliged to stand and hover within call.

"Coffee fairly done, Lady Augusta called me gently to come and speak to Her Majesty. I obeyed, first asking, as an old, infirmish man, Majesty's permission to sit, which was graciously conceded. Nothing of the least significance was said, or needed; however, my bit of dialogue went very well. 'What part of Scotland I came from?' 'Dumfries (where Majesty might as well go sometimes). Carlyle, Caer Lewel, a place of about the antiquity of King Solomon (according to Milton)' whereat Majesty smiled. Border ballads and old James Poot slightly alluded to, not by name. Glasgow, and grandfather's ride thither, ending in more psalms, and streets vacant at 9:30 p.m.—hard, sound Presbyterian root of what has now shot up to such monstrously ugly cabbage tree, and hemlock tree! all which Majesty seemed to take rather well: whereupon Mrs. Grote rose good-naturedly and brought forward her husband cheek by jowl with Majesty, who evidently did not care a straw for him, but kindly asked—'Writing anything?' and one heard, 'Aristotle, now that I have done with Plato' (but only for a minimum of time). Majesty herself (and I think apropos of some question about my shaky hand) said something about her own difficulty in writing to dictation, which brought forward Lady Lyell and husband, mutually used to the operation, after which, talk becoming quite trivial, Majesty gracefully retired with Lady Augusta, and in ten minutes more returned to receive our fare-well bows, which, too, she did very prettily, and sailed out as if moving on skates, and bending her head to us with a smile.

"Froude tells me there are foolish myths about the poor business, especially about my share of it; but this is the real truth, worth to me in strictest truth all that nothing, in the myths less than nothing. 'Toll the Dr. I intended writing him, but it is already (horrible to think) a quarter past 4. Adieu, dear sister, yours ever, 'T. C.'"

TWO OPERATIONS.

BOTH FAILURES.

A Case of Kidney Complaint That Would Not Yield to Surgery or Medicine Until B. B. B. Was Tried.

GENTLEMEN.—After having undergone two operations for Kidney Complaint without securing the least relief, and hearing of some remarkable cures made by B. B. B. in our neighborhood, I decided to try it. I was given up by the doctors after the operations failed, and it was providential that I heard of B. B. B. After the use of six bottles I experienced so great relief and so great a change for the better that I felt the good effects would be lasting, as indeed they have been. The seventh bottle perfectly cured me, and I am now stronger and better than I ever was before. People who saw me now can scarcely believe that I am the same person.

FABIOLE REINHARDT, Quebec, Que.

JUDGMENTS.

Full Court Dismisses Appeal in Hamilton Manufacturing Co. v. Victoria Lumber Co.—Decision by Mr. Justice Walkem.

Judgment was given yesterday in the Full court dismissing the appeal of plaintiff in the Hamilton Manufacturing Co. v. Victoria Lumber Co. The case was one in which plaintiffs agreed to supply defendants with a boiler for their steamer Daisy. After the boiler was paid for defendants received other machinery from plaintiffs to the value of \$1,300, for which they declined to pay, bringing in a counter claim of \$900 for damages on account of the boiler being defective. At the trial Mr. Justice Drake awarded the plaintiff \$1,300 on their claim, and on the counter claim allowed the defendants \$900 damages. The present appeal is from so much of the judgment as gave \$900 to defendants on their counter claim. The appeal was yesterday dismissed with costs, the question of damages to be argued before the Full court on April 18. Mr. J. A. Russell for plaintiffs (appellants); Mr. E. V. Bodwell and Mr. Archer Martin for defendants (respondents).

Yesterday Mr. Justice Walkem gave judgment in Lorimer v. Jensen, dismissing the action with costs. Mr. Wm. Lorimer as contractor for the construction of the Dallas hotel, brought a claim for extras amounting to \$2,755.95 against Mr. Wm. Jensen the owner. On September 1, 1891, the architect of the building, the late E. McCoskrie, gave his final certificate for the main contract, and in October, 1891, awarded by certificate \$668 for extra work by plaintiff. In October, 1891, defendant had a settlement with the architect for his services. At a later date the architect gave plaintiff two further certificates, one for \$2,012 and another for \$743.20—the first one for extra work claimed by plaintiff to have been ordered by the architect, and the second for work said to have been ordered by defendant. For the defence it was claimed that the work was neither an extra nor was it ordered by defendant; that the architect, at the time he gave the last certificates, was no longer employed by the defendant (functus officio); also that no estimate in writing was obtained from the architect as required by the contract. Mr. E. V. Bodwell and Mr. A. L. Belyea for plaintiff; Mr. Geo. Jay, jr., for defendant.

GREAT OPPORTUNITIES.

TO THE EDITOR:—Once in a long time the city contractors see a prospect of obtaining a good sized contract. In order to make the maximum of money out of contract, it is necessary to have a good understanding with the engineer. If there be in office an engineer above suspicion, he must be discharged, and for him there must be substituted a man of a more pliable kind. Having got the sympathies of a number of aldermen favorable to the contractors, there will be a chance to make something. But it is necessary to take a plan that can be built quickly and not go into too much cofferdamming, pumping, etc., because the contractors' friends might be out of office before all that cofferdamming and pumping is done, and the next lot might send engineers and the rest of the confraternity to the demerolion bow-wow. Besides the ratepayers might, in spite of their general torpidity, wake up to a sense of the situation, and then there would take place a scuffle amongst the rate before they left the ship, and a mutual interchange of condemnation.

That was rather a curious piece of information given by the Mayor to the Eastern experts, that the water was comparatively pure—but compared with what—the purity of municipal politics, or sewage, or what other comparison? There is not the necessary supply of water, nor yet the pressure. But there is a sentiment in favor of doing that which will squander the money of the ratepayers, and result in a failure; and the outcome is aware of it, too. But who educates public opinion? Why, the Mayor and council, of course, and when they don't feel certain about the future results of their action they call a public meeting, of which one man in five owns property, to whitewash their proceedings. Some councillor introduces a by-law, and a majority of the council misrepresents the facts—volumes of oratory are poured forth to prove that that is which is not, and presto, the ratepayers of Victoria have themselves to blame.

Thomas Carlyle has left it on record that 'the population of the world is composed of so many millions of people, mostly fools; and Thomas Carlyle was a deep thinker—more so than most of the ratepayers of Victoria. These same ratepayers allowed the bill brought forward for the better government of the city of Victoria to be defeated in its initiation—albeit that it was a permissive bill that could not be put in force without the consent of the same ratepayers. All the features of that bill to which any reasonable man could object could have been amended in committee. After a time Victoria will become even more celebrated than at present for the excellence of her city government. The filter beds being built and a dry season ensue, the public will become wild and demand a supply of water, when it will be discovered that in order to utilize the Elk lake water filtered, and water from Goldstream, Sooke, or elsewhere, the city must have two sets of water works, and an expensive complication to maintain.

But that makes no difference. The confiding ratepayer must stand the expense and the municipal contractors will pocket the profits and build an extra waterworks for the confiding ratepayers with the greatest pleasure. When will this absurdity end? Not until the more intelligent of the ratepayers begin to vote on the by-laws placed before the city. Judging from present appearances it may be no long time before the ratepayers will begin to find that the council has involved the ratepayers in burdens difficult to bear.

CITIZEN.

It is probable that the City of Kingston will go into dock shortly for an overhauling, which she badly needs. She was late in arriving from the Sound last evening, the delay being due to rush of freight occasioned by the distribution of the Tacoma's cargo.

WALTER BAKER & CO.

The Largest Manufacturers of PURE, HIGH GRADE COCOAS AND CHOCOLATES

On this Continent, have received HIGHEST AWARDS from the great

Industrial and Food EXPOSITIONS in Europe and America.

TOWEARATTHEKIRK

APPROVED COSTUMES FOR BRIDES
AND BRIDESMAIDS.Imported Gowns Show Smaller Sleeves.
Seams Are Corded Once More—Tulle Vails
Are Worn to Show the Hair—White Kid
Slippers.

[Copyright, 1895, by American Press Association.]

It was in a grand store on Broadway that a polite salesman said to me, "If you will stop this way, ma'am, I will show you some new waistesses." I went with him and certainly did find something very new, and though, to be sure, one swallow does not make a summer, straws show which way the wind blows. The wind is blowing away the superfluous cloth in the sleeves. One of the prettiest dresses shown in a long time was made with sleeves set in entirely smooth across the shoulders. About four inches below the seam there was a double rose plaiting of fringed silk of a very pale pink. The dress itself was a printed india, with a pattern of pink pimpernel between white dots on a gray

BRIDE AND BRIDESMAIDS.

ground. Below the plaiting there were two drooping puffs, which stood out quite full, but yet not as sleeves have done lately. The lower part was gigot shape. Certainly the sleeve was not small, but the fact that the shoulder seam is plain is significant. The waist to this pretty gown was a perfectly plain French one, with a belt to which the skirt was sewed, and there was a medium wide sash twice around and tying in the back in loops, with long ends. There was a rose plaiting around the bottom of the skirt, and a large ribbon bow in the back of the neck.

Another very novel waist had an incredible bow of black crepe de chine, and this was brought down the front and crossed into a vest front drapery, and from the front carried around to meet in the center of the back in another bow. Over this was a queerly shaped Eton, with shoulder pieces sloped down well over the sleeve and ornamented with three milliner's folds. This jacket was of dark blue reps silk. The cuffs to the quiet narrow balloon sleeve were of the blue silk reps. The skirt and upper portion of the sleeves were of shaded blue and white crepon. The upper portion of these sleeves was laid in flat box plaits and stitched down, so that this sleeve was also virtually smooth on the shoulder.

An evening costume furnished the other one of these "waistesses." It was of a rich chestnut brown satin duchess, cut with a flaring skirt. The corsage was pointed front and back and draped down the front in very effective broken lines. The bodice was cut straight around and well off the slope of the shoulders. Above the edge of the waist were two bias folds of maize crepe lisse. The sleeves were very moderate puffs, requiring no more than one width of silk and about a quarter of a yard in depth. On the left side of the corsage were a large yellow rose and buds, but no foliage. By these three models, imported by one of the best houses in this country, it can be understood that they mean something.

Yet I saw in another place some new sleeves in process of completion that put everything heretofore seen to the blush. They are exactly the shape of a pumpkin seed and are very stiffly lined and have a corded seam down the outside. Sometimes the cord is of a contrasting color. There are also sleeves where the upper draping is in form of a butterfly, stiffened with wigan. But I am quite positive that sleeves have begun their downward course.

As soon as Lent is over there will be a number of weddings, and it is a pleasure to give a pen picture of a gown, as simple as it is elegant, as a model from which many young ladies can draw their own conclusions and ideas. This was made of mat white grosgrain, cut entirely on princess, with a long and simple train. There was a narrow border

NEW CORSAGES.

der of waxen orange blossoms and leaves carried clear around the skirt. At the waist in front there was a long shield shaped fold where it closed, and a belt with two rosettes of satin ribbon. There was a plain yoke made of white crepe lisse laid in close plaits, and where that joined the silk was a border of orange blossoms, which reached to a point, both front and back. The collar was a closely wrinkled stock of crepe lisse. The medium sized gigot sleeves came below the wrists in a chataleine point. There was a small wreath of the orange blossoms, and the long tulle veil was puffed up beneath it in such a way as to leave part of the hair visible. The veils are to hang backward and not over the face,

and they are not to be hemmed at all, but out smooth across the bottom. The hem makes it too heavy. White kid slippers and white ribbon bows are the proper bridal shoes. No bride now wears a bow corsage or short sleeves. The bouquets are comparatively small and are tied in such a way that there is one strong loop through which the bride can pass her wrists to let the flowers hang down, leaving her hands free. Dainty little lace and white crepe de chine chataleine bags for the handkerchief are frequently worn.

A gown for a bridesmaid is only second in importance to the bride's apparel. One was made of gray brocade, with wavy lines, on which were coral pink dots. The skirt was plain and the waist laid in Russian blouse plaits. There was a simulated figaro of coral pink velvet. This was laid in jabot folds, in the center of which were rosettes of the velvet. The stock collar was of the same, and there were rosettes of the velvet set in the middle of the balloon puffed sleeves. Pale pink mousquetaire gloves and a gray felt hat, with pink velvet and gray plumes, completed this handsome costume.

There was another dress for a young bridesmaid that was too pretty to omit mention of. This was intended for a home wedding, the other for a church wedding. This had an underskirt of moonlight blue glace and over it a very full gathered skirt of white silk muslin. At the exact edge of the skirt was a flat band of blue grosgrain ribbon all around, and above that were sewed rows of pearl beads as large as marrow-fat peas. These were sewed to make vandyke points on the upper edge. The waist was a full "infant," with the gathers turned over at the top to give a broken outline. There was a wide blue ribbon draped as a belt in front and tied in a deep sash in the back, with long ends. There were ribbon bows on the short puffed sleeves and full rosettes of the silk muslin on the bust and shoulders. Pearl colored mousquetaire gloves were provided. Dresses for bridesmaids should never outshine that of the bride, but they may be made pretty and attractive without being extravagant.

ANOTHER TEST
CASE!

A Lady Concerned.

Paine's Celery Compound Brings Her
Health and
Strength.EARTH'S BEST
SPRING MEDICINE.

Nervousness and nervous debility are almost invariably the results of some drain upon the vital forces. The results that follow, when nervous troubles are allowed to run unchecked and uncared for, are terrible and appalling. Sleeplessness, mental depression, loss of spirits and energy, dullness of brain and eye, shrinking from society, defective memory and insanity, make life a continued agony.

Medical science has bestowed upon nervous sufferers a great blessing and a perfect cure. It is known to the world as Paine's Celery Compound, Professor Phelps' great discovery for nervous diseases.

The record of this wonderful medicine is truly a grand one, and thousands now live who owe their lives to its marvelous curing virtues. Each passing day brings fresh and grateful letters from men and women who have found a new life through the use of Paine's Celery Compound.

Mrs. W. Allen, jr., of Almonte, Ont., writes thus:

"Through the pleadings of a friend I tried Paine's Celery Compound for nervousness and loss of sleep, and I find it has done more for me than any other medicine I ever used; it is certainly the best of all medicines. After using but two bottles of Paine's Celery Compound, I find myself as well and as strong as ever before. It is needless to say that I recommend the compound at every opportunity."

Relief in Six Hours.

Distressing Kidney and Bladder diseases relieved in six hours by the "GREAT SOUTH AMERICAN KIDNEY CURE." This new remedy is a great surprise and delight on account of its exceeding promptness in relieving pain in the bladder, kidneys, back and every part of the urinary passages in male or female. It relieves retention of water and pain in passing it almost immediately. Sold in Victoria by D. E. Campbell.

Carpenters' tools at Cheapside.

- THE 20th PART -

The last and greatest part of "MASTERPIECES FROM THE ART GALLERIES OF THE WORLD" is issued to-day.

This set of Portfolios, the best and most artistic of all offered to the public, should be in the houses and on the tables of all our readers.

BIRTH.

JONES—In this city, on March 27th, at 51 South Turner street, the wife of D. D. Jones, of a son.

DIED.

MERRILL—On the 28th inst., Joseph Merrill, a native of Cheshire, England, aged 63 years. The funeral will take place to-morrow, SATURDAY, at 2 o'clock, from Hayward's undertaking parlors. Friends are invited to attend.

BILLINGS—At the Provincial Royal Jubilee Hospital, on the 28th inst., Alfred O. Billings, of Chichester, England, aged 19 years. Funeral services will be held at Christ Church Cathedral on Monday next, the 1st April, at 10.30 a.m.

Catarrh Relieved in 10 to 60 Minutes.—One short puff of the breath through the blowers supplied with each bottle of Dr. Agnew's Catarrh Powder, diffuses this Powder over the surface of the nasal passages. Painless and delightful to use, it relieves instantly, and permanently cures Catarrh, Hay Fever, Colds, Headache, Sorethroat, Tonsillitis and deafness. 60 cents. At Langley & Co's.

Another line of Japanese rugs at Weiler Bros.

Quick Time to the East.

The Great Northern train now leaves Seattle at 6 p. m., and arrives in St. Paul at 5.55 p. m. This change in the time card puts Victorians 20 hours nearer St. Paul, Chicago, New York, etc., and passengers have only to lay over at Seattle 1 hour now.

Drink Victoria-Phoenix Lager Beer.

When Baby was sick, we gave her Castoria.
When she was a Child, she cried for Castoria.
When she became a Man, she clung to Castoria.
When she had Children, she gave them Castoria.

New indexed map of "British Columbia Up to Date," in spring map case, \$5; mounted with rollers top and bottom, \$3.50; sheets, \$1.50. To be seen at Hibben's, also at Brann's and J. H. Brownlee's office, 44 Fort street.

Heart Disease Relieved in 30 Minutes.—All cases of organic or sympathetic heart disease relieved in 30 minutes and quickly cured by Dr. Agnew's Cure for the Heart. One dose convinces. Sold in Victoria by D. E. Campbell.

The World's Fair Tests showed no baking powder so pure or so great in leavening power as the Royal.

The World Enriched.

The facilities of the present day for the production of everything that will conduce to the material welfare and comfort of mankind are almost unlimited and when Syrup of Figs was first produced the world was enriched with the only perfect laxative known, as it is the only remedy which is truly pleasing and refreshing to the taste and prompt and effectual to cleanse the system gently in the Spring time or, in fact, at any time and the better it is known the more popular it becomes.

WHAT DO YOU WANT? You can get it by advertising in THE COLONIST, and it will not cost you much.

SPORTS AND PASTIMES.

Yachting Prospects and Preparations.—The Golf Tournament Opened.

"Wild Man From Borneo" Takes the Great Liverpool Race—To-day's Events.

The Victoria Yacht Club had a well attended general meeting last night in the J. B. A. A. club house, when some of the arrangements for the coming season were completed. The following were added to the managing committee: Messrs. H. R. Foot, F. C. Holden, W. L. Challoner, K. Finlayson, W. Croft and D. H. Anderson. The managing committee will at once begin preparing for Queen's Birthday celebration yacht races. It is expected that a much larger number of yachts will take part than in former years, as Seattle, Fairhaven, Whatcom, Tacoma, Port Townsend, Port Angeles and Everett clubs are all making preparations for the event. Great interest is being centred in yachting circles this season, owing to the addition to the Victoria fleet of the two fast yachts brought out from the Old Country by Commodore G. A. Kirk, and also from the fact that among the new competitors at the Queen's Birthday regatta will be a yacht of novel design now being specially built in Seattle. The Seattle Argus gives the following description of her:

"Among the many new candidates for aquatic honors that are being built for the coming season on the Sound, none are receiving so much favorable comment and criticism as the 'White Star,' the new North Seattle sloop, designed and built by Neil Dennee. The White Star is of an entirely different type from anything heretofore seen in these waters, but of a style which is rapidly gaining favor on the Atlantic coast. She was primarily intended for a roomy, comfortable cruiser, speed being a secondary consideration, but by a glance at her easy, graceful lines it will be easily seen that Mr. Dennee never intended her to adorn the tail end of the procession. The White Star is a keel boat, 35½ feet in length over all, 11 feet beam, 6 feet deep, and will have a draught of about 7 feet. Her mast will measure 45 feet from deck to truck; main boom, 34 feet; gaff, 22 feet; bowsprit, 17 feet, and she will spread 2,250 square feet of canvas.

She will probably be launched early in April, and will participate in the races at Victoria on May 24.

Mr. E. W. Spencer, of the Victoria club, has extended an invitation to the members to accompany him on his yacht Ariel this afternoon, leaving Jones' boathouse at one o'clock for a trip to Esquimalt, when an opportunity will be afforded to inspect Commodore Kirk's two new yachts on board the ship Albion.

Seattle will send a fleet of twelve or fifteen yachts to the Queen's birthday regatta.

"AILSA" WINS FROM "BRITANNIA."

NICE, March 29.—The Ailsa and Britannia raced to-day for the James Gordon Bennett cup and five hundred sovereigns. There was a whole sail breeze and plenty of sea for the race and they went over the entire course with sails reefed. The Britannia got the best of the start, but she was soon overhauled by the Ailsa. The race was close, however, and the Ailsa won by two minutes.

AILSA AGAIN A WINNER.

NICE, March 29.—The Britannia was beaten to-day over a triangular course of thirty miles, with eight turns, by the Ailsa, in a piping breeze, through white-capped seas. The Britannia had bad luck, otherwise the result might have been different. The race was for prizes offered by James Gordon Bennett, a cup valued at \$500 and a purse of 500 sovereigns.

THE V. C. C. IN POSSESSION.

To-day the Victoria canoe club will move into their new quarters and their own home, a pretty little floating clubhouse, to which Contractor Williams has just given the finishing touches. The building was towed down from the upper end of the harbor yesterday, and moored alongside Jones' boat house, where it is to be permanently located. The building is a story and a half high, built on a float 56x35 feet, and has a promenade all around the house eight feet wide in front and three feet wide at the sides and back. It has three entrance doors in front and one in the rear. The interior arrangements are very convenient. There are an auditorium, a ladies' dressing room, fifty lockers, a shower bath, and racks sufficient to accommodate forty-eight canoes. The auditorium is situated in the upper part of the building and exactly in the centre, as the roof indicates. The building will be painted in buff with red trimmings, and will be surmounted with a fourteen-foot flag staff bearing the colors of the club.

THE OAR.

OXFORD AND CAMBRIDGE TO-DAY.

LONDON, March 29.—The Oxford-Cambridge boat race, which will be rowed on the Thames to-morrow, is the only topic this evening among university men and others interested in aquatic sports. The prospects seem even more favorable than usual to Oxford. Both the general public and boating experts have been for weeks of opinion that Cambridge's defeat is certain, and to-night the betting is 9 to 2 against Cambridge. This gives some idea of the confidence felt in the Oxonians.

THE WHEEL.

THE "OLYMPIC" AMBASSADORS.

The members of the Victoria Wheelmen's Club meet at the city hall at 2 o'clock this afternoon for the first run of the season, which will be to Esquimalt by the direct road and back by way of Craigflower and the Gorge. There should be a good turn out, if the weather is favorable, and a good time for all. On this run, as well as on a special Sunday ramble, the Victoria boys will have the pleasure of the company of three California cranks—Walter C. Howe, Percy H. Douglas and Charles W. Conger. They are all members of the Imperial Cycle Club, of San Francisco, and arrived here by the last direct steamer—on a tour in the interest of "The Olympic." From Victoria they cross to the Terminal City, from which point they take wheel for home, intending to pedal the entire distance, forming the ac-

quaintance of the brethren along the line and incidentally making known the merits of "The Olympic." It is expected that about one month will be taken on the tour, which will also serve to demonstrate the practicability or otherwise of a careful rider trusting himself to a light wheel on take-chances roads. The trio mount No. 19 "Imperials" and feel confident that they will stand the hard work. The route includes calls at the Bellingham Bay cities, Seattle, Tacoma, Portland and Olympia, from which latter point the order is "Frisco direct." The Olympic, in whose interest the trip has been arranged, is a neat ten-page fortnightly paper devoted to general sporting news—the official organ of the Pacific Athletic Association.

THE TUEZ.

THE OVER WEIGHT NAME WON.

LIVERPOOL, March 29.—The grand national steeplechase was run to-day at Aintree and won by Wild Man from Borneo; Cathol second; Vanderborg third. Never was there such heavy wagering on a steeplechase and the victory of the Wild Man brought with it consternation to the majority of backers. Although one of the earliest favorites in the race, the public preferred his stable companion, Waterford, after the latter's recent victory, and as a result the astute enterpriser behind Garrison's stable won over \$50,000 on the Wild Man at an average odds of 16 to 1. The scratching of Cloister left Aescop and Cathol almost equal favorites, and Cathol's running proves how great were his stable companion's, Cloister's, chances had all gone well with him. The Irish division pinned their faith on Cock of the Heath, who ran very disappointingly.

THE SEFTON PARK PLATE.

LIVERPOOL, March 29.—The race for the Sefton Park plate was won by Juggler; Bender second; Rugby Cement third.

GOLF.

THE VICTORIA CLUB MEETING.

The first annual spring meeting of the Victoria Golf Club was opened yesterday, when the Ladies' Open Handicap was decided. The scores will be published to-morrow with those of other events. These take place to-day, commencing at 10.30 a.m. The Tacoma gentlemen whose names appeared the other day in the list of entries arrived on the Sound steamer last evening.

There will be a lunch for all golf players, in the club house from 12.30 to 2 p.m. to-day; and an afternoon tea will also be served. At the latter function the prizes will be presented.

WRESTLING.

THE "STRANGLER" A WINNER.

DECORAH, Ia., March 29.—A wrestling match between "Strangler" Lewis and McMillan of this city last night was won by Lewis in three out of five falls. Time—7, 13 and 10 minutes. McMillan won the third fall in 22 minutes. The match was very exciting throughout.

FOOTBALL.

THE INTERMEDIATE ASSOCIATION MATCH.

There will be two football meetings in the British Columbia Dye Works this evening. One, which commences at 8 o'clock, will be that of the intermediate association for the purpose of making arrangements for the match here on the 6th proximo between the junior teams of the Nanaimo Rangers and Victoria Wanderers. The second meeting, which is called for 7 p.m., will be a general meeting of the Wanderers club.

HERE AND THERE.

GENERAL GOSSIP OF CURRENT EVENTS.

The Vigilant is to sail for New York on April 9.

The Victoria and Union gun clubs have a practice shoot over the Oak Bay traps this afternoon, beginning at 2 o'clock.

Mr. H. D. Helmsken, M. P. P., has been elected honorary president of the James Bay lacrosse club.

Mr. A. Hancock, a champion all round pedestrian, is in the city and is anxious to make a match with some local man. He is willing to walk four men four miles, a fresh man every mile.

The Fernwood baseball club yesterday reversed the verdict in their former match with the High School, defeating the latter by a score of 17 to 9. The game was fast and interesting through every innings.

S. Murdoch Kendrick, of Philadelphia, president of the Intercollegiate athletic association, has mailed to England a challenge for a track and field sports meeting this summer in England, with the combined strength of Oxford and Cambridge universities.

HIGH KICKERS.

Prof. Gleason Handles Some Lively Bits of Horseflesh at the Market Hall.

Prof. Gleason's horse taming exhibition furnished lots of sport for those who last night attended at the market hall. There was plenty of excitement over a little brown horse owned by Mr. Finnerty. A decidedly animated mingling of horse and tin pans was the first view the spectators got. Then the tamer cried whoa! and with a scientific pull on a rope drew up one of the horse's legs. The tin pans, it then appeared, were attached to the brownie's tail. In a moment he was off again trying his best to reach the band in the gallery with his hind hoofs. He tumbled down and tumbled up again, scattered the audience and created general confusion for a while, but before many minutes he understood what "whoa" meant and like a sensible equine surrendered. After that tin pans, firecrackers and the steam whistle could not make him kick. Next he was driven in a rig with a big gray owned by Mr. Bray. The gray was somewhat of a kicker too, to start with, but gave in quicker than the brown. A pretty little black pair belonging to Mr. Galpin were put through their paces. They are somewhat noted runaways and are nervous and high strung. The near one of the team gave the

THE SLATER

\$3 SHOE

FOR MEN.

HERE'S AN OPENING

FOR A LIVE MERCHANT IN EVERY TOWN IN CANADA.

The Agency for the SLATER SHOES carries with it an advertising allowance at our expense in your local paper. We build the business, supply the Best Shoes Value in the market, and you've only got to sell the people what they ask for.

IN OLDEN DAYS

The hand-made shoe wore longest, looked best and cost the most money. The poorest shoemaker in the land claimed justly enough that his product was superior to the best factory output.

BUT THOSE DAYS ARE PAST

French Calfskin is no longer as good as American Wax Calfskin. The machine shoemaker has been replaced by the machine itself. The shoemaker with the most brain is elected to the management of those machines, and he puts more than leather or wax end into shoes; he puts ideas, style, finish, wear and a few other things.

TEN SHOEMAKERS

Sitting on their benches, working by hand all day long, won't turn out as many good shoes as ONE will by means of the tireless GOODYEAR WELT MACHINERY. The man who makes shoes by hand may miss a stitch or fail to draw the thread as tightly in the evening as in the morning. Its different with the machinery that manufacture

THE SLATER SHOES

They are made from the best American Wax Calfskin, on the most perfect lasts and from the latest improved machinery. They have all the good points of the best American-made Shoes, and Canadians can buy them FREE OF DUTY.

WRITE US FOR ILLUSTRATED AND DESCRIPTIVE CATALOGUE.

GEO. T. SLATER & SONS, MONTREAL
